As long as this formula that requires all of this additional data is in place for high schools.

High schools have a pretty good idea of where they are when the FCAT scores come out. DA schools are selected during the summer at the high school level, along with all of the elementary/middle schools.

Sincerely,

So it will always take longer now?

Cari,

Thanks for your message.

For high school grades, they have to factor in a lot of other factors now – like graduation rate, accelerated coursework, postsecondary readiness, etc. It takes much more time to gather all of that data. Last year, the grades for high schools came out in late November/early December.

I am attaching the school grades TAP from this summer that spells out all of the formulae.

Have a great afternoon and thanks again for all that you do!

Sincerely,

Kevin Smith,
