Subject: Question for you

Cari,

Okay...so I try not to bother you too much with questions from your old life – but I'm by myself today and have a question from Linda Gaughn about DIBELS. She's looking for an assessment for her elementary blind/visually impaired students. FAIR really isn't working out for them. She asked if she could purchase DIBELS from Oregon and report the scores through our system. DIBELS is DIBELS, right? There's no specific DIBELS for Florida is there?

Thanks so much for your help with this one! Let's get together for lunch sometime soon ☺
