**Subject:** RE: Bulman data request

---

Yes, he's at Stanford. Apologies for the confusion in our discussion on Monday. A request from the University of California looking at postsecondary outcomes was the request I was thinking about when mentioning denial. Mr. Bulman currently has program office approval for sponsorship from Julie Alexander. Our methodology team meets later this week to discuss all program office approved requests. I expect all final approval/denials to be made by mid-December with notice provided to requesters no later than the end of December. I believe the only major issue with his request is PLAN data, which is currently not loaded into the warehouse. I noted he has an agreement already in place, in conjunction with Dr. Hoxby, that will provide all College Board data we'll need to process his request, namely PSAT data which is not fully loaded into the warehouse at this time.

Hi Jonathan,

As I mentioned on Monday, George Bulman, a graduate students at Harvard, has a proposal in to evaluate the One Florida Initiative programs: free PSAT/PLAN exams, fee waivers, teacher incentives for AP success, etc.

Could you please let me know the status of this data request. He submitted for the October review.

Thank you,  
Christy
