Hello Mike,

This is Nadia with FEE - I just left you a voicemail but wanted to quickly follow-up.

We're working with some friends in Louisiana on combatting the idea that expanding their school choice program statewide will cause a mass-exodus from the public school system. They're working on an oped (unfortunately with a tight suspense) and have asked for this year's data on the number of students state-wide who are eligible to participate in the McKay / Corporate Tax Credit Scholarship / Opportunity Scholarship programs vs. the number of students who actually have applied and been enrolled in each program.

They want to spotlight our numbers to show that there will be far more students eligible than actually choose to participate.

Unfortunately, their submission deadline requires them to have the numbers by 10 am EST tomorrow (Thursday). Any help you could provide would be much appreciated!

Many Thanks!
