---

Yes, they will try to accommodate anyone who asks to speak.

Below is a graphic on the calculation for the middle school acceleration component that we discussed and example. Let me know if you have questions.

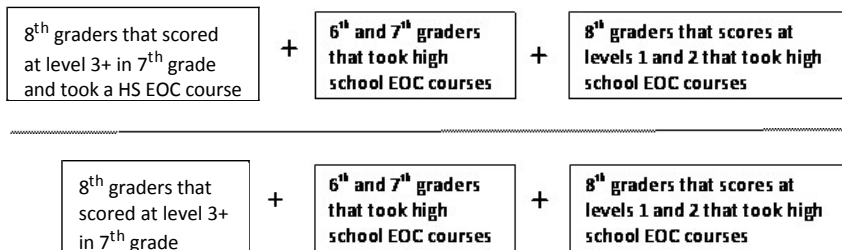

Thanks,

Jane

Example:

8<sup>th</sup> graders that scored at level 3 the year before = 100  
8<sup>th</sup> graders that scored at level 3 the year before and took an EOC = 50  
6<sup>th</sup> and 7<sup>th</sup> graders that took HS EOCs = 50  
8<sup>th</sup> graders that scored at level 1 and 2 and took an EOC = 5

$$\frac{50+50+5}{100+50+5} = 68\%$$
