Subject: FW: meeting with researcher

Gerard,

Dr. Patrick Murphy with University of San Francisco is doing research for the Center for Reinventing Public Education (funded via Broad Grant). He would like to interview several state ed chiefs about the issues they face doing school turnaround.

He has calls set up with tony, chris and paul. He would really like to get a Florida perspective.

Patrick will be at the ed summit in October. Would you be willing to carve out a few minutes to meet with him re: Florida?

If you don't have the time then, I am connecting you both via email so you can possibly talk by phone before/after the summit.

Thank you so much for considering.

Patricia
