Subject: RE: SAI Report

Mary Laura – We have not been able to locate any cost data on summer reading camps. We reviewed all financial reports during that time, as well, as some program documents and none of them provided cost information. The attachment does provide on page 21 “observations” regarding reading camps and page 28 presents the estimated hours of instruction, number of participants, etc. in the camps. We could use this information and average teacher salary in 2002-03 to estimate the statewide cost of the camps if that would be useful to you. Please let me know.

Mary Laura – this document does not report expenditures for strategies utilized by districts. I have folks looking at some of the underlying information for this report as well as other reports on third grade retention, etc. Will let you know as soon as we have something (or not).

Joanna and Mary Laura,

I found the 2002-03 SAI Annual Report – this was the last one that was done. It is online at: <http://www.fldoe.org/bsa/title1/dropout/pdf/sai-doc.pdf>
