Jim and Pat:

After careful consideration I have produced the following two documents for the creation of a contract for each consortium with FFR. I believe we must act quickly and make sure we have a research component involved up front and that is why I have asked Dr. Surrency to check with the University of Florida's College of Education to engage in a contract with a Doctoral Student to prepare a research project on the front end of this most important product. See Attachment 1,

I have prepared a budget after much thought keeping in mind that the students come first in this project Attachment 2. We can not have the students reading in the current level 1 like the numbers referenced in attachment 2.

Thanks for working with me on this project. You two are going to make a difference in the lives of many many students.

Thanks for your cooperation and understanding.

Steve
