Hey,

Let me know if I need to request this through the data folks formally. I'd like to be able to determine how our first cohort of retained students are doing now. They would be in 11<sup>th</sup> grade right now. I'm not sure how to find this out except to first find out what percent of the 2002-2003 student who scored level 1 and were retained (first cohort of retained students), are now in 11<sup>th</sup> grade. We might could see how they've scored on FCAT each year since. Like what percent of those retained, scored Level 1, 2, 3, 4, 5 each year after the retention. Just hoping you all may have this latter data already, but I'm pretty sure we don't have data to answer my first question.

Let me know how to proceed in the timeliest manner. Thanks!

Sincerely,
