Hi Cari—

Some that are frequently used & comparable (cover general development) are the Early Screening Inventory-Kindergarten (ESI-K—this was formerly used in FL for K screening), Brigance, Denver Developmental Screening Test (DDST), and the Work Sampling System (this was formerly used in FL for K screening as well).

Tara

Subject: FW: Why ECHOS?

Hi, Tara. Could you please share some names of assessments for young children with Cari that are similar to ECHOS?

Thanks,
Melinda

Subject: Why ECHOS?

Are there any other assessments out there like ECHOS? Assessments that serve the same purpose?

Sincerely,
Cari Miller
