Subject: Question regarding SB

Good Morning Kay,

I have been getting slammed with questions from principals around the state with concerns over SB 1368. (mainly the AP eligibility portion, lines-~~328~~) Adam Potts informed me that Patricia might be taking this issue up with Senator Gaetz, the bill's sponsor. Apparently there is a sister bill in the House. Do you have any insight for me that I can share with these principal's? I have been telling them to contact their legislators, but they are very agitated. Thoughts?
