

## Understanding infrastructure privatization

[\*Understanding and Evaluating Infrastructure Public-Private Partnerships \(P3s\)\*](#) (2019)

A guide to help advocates, policymakers, and other stakeholders better understand and analyze public-private partnership (P3) infrastructure proposals, contracts, and related legislation.

[\*Understanding and Evaluating the Use of Public-Partnerships for Public Buildings\*](#) (2020)

This guide aims to help advocates, policymakers, and other stakeholders better understand and analyze public building (schools, etc.) public-private partnership (P3) proposals, contracts, and related legislation.

[\*Understanding and Evaluating the Use of Public-Partnerships for Public Buildings\*](#) (2020)

This guide aims to help advocates, policymakers, and other stakeholders better understand and analyze public building (schools, etc.) public-private partnership (P3) proposals, contracts, and related legislation.

[\*Availability Payments in Public-Private Partnerships: Issues and Implications\*](#) (2018)

A research brief providing an introduction to availability payments, followed by four issues that are important for policymakers and stakeholders when considering an availability payment public-private partnership.

[\*The Risks Posed by Water Privatization\*](#) (2020)

A research brief outlining a few of the serious risks posed by water privatization deals and provides examples of communities that have dealt with the harmful consequences of water privatization.

[\*Public-Private Partnerships: Confronting Infrastructure Privatization\*](#) (2019)

A memo outlining the significant risks with public-private partnerships that can have lasting consequences for the community for decades and what to do when your community is considering such a deal.

[\*An examination of private financing for correctional and immigrant detention facilities\*](#) (2018)

A report documenting how private prison corporations CoreCivic and GEO Group are primed to provide additional jail, prison, and immigration detention space by privately financing new facility construction.

[\*Building American While Building Our Middle Class: Best Practices for P3 Infrastructure Projects\*](#) (2016)

A report describing best practices to ensure that public-private partnership (P3) infrastructure projects help tackle inequality and create middle class pathways for disadvantaged communities.

[\*Infrastructure Justice: Building Equity into Infrastructure Financing\*](#) (2014)

A report outlining goals and principles to ensure public-private partnerships (P3s) are structured to benefit the public, local economies, and double-bottom line investors.

[\*The perils of privatizing parking assets\*](#) (2019)

A fact sheet detailing the risks and impacts of parking privatization contracts, using the 2008 Chicago parking meters deal as a running case study to illustrate real-world consequences.

[\*Ask the Right Questions Before Privatizing\*](#) (2019)

Ten questions to ask before any privatization decision is made.
